Stamping Tool Design

Our stamping design team have years of design experience in connector, lead frames, and semiconductor industries. Other scope of work metal components for the hard disk drives, telecommunication, consumer electronics, computer peripherals and automotive industries.

Our capabilities

- Materials ferrous, non ferrous and plastic such as polyamide.
- Material thickness range from 0.030mm to 5.0mm
- Smallest punch size is ratio to 0.7 : 1 material thickness.
